## Professional Summary

---

Final-year **B.Tech** student in **Computer Science and Engineering** with hands-on experience in Full Stack Web Development and Blockchain technologies. Skilled in Java, Python, JavaScript, React.js, Node.js, Express.js, MongoDB, and Solidity. Experienced in building MERN stack applications, RESTful APIs, and blockchain-based solutions. Seeking a **Software Developer Internship** or entry-level Software Developer role.

## Education

---

### Cambridge Institute of Technology, Ranchi

2022 – 2026

Bachelor of Technology (B.Tech) in Computer Science Engineering

CGPA: 6.90

### Birla Institute of Technology, Mesra

2017 – 2021

Diploma in Computer Science Engineering

CGPA: 6.46

## Relevant Coursework

---

Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering

## Technical Skills

---

**Programming Languages:** Java, Python, C, JavaScript

**Frontend:** HTML5, CSS3, React.js, Tailwind CSS

**Backend:** Node.js, Express.js

**Database:** MongoDB, SQL

**Blockchain:** Solidity, Ethers.js, MetaMask

**Tools:** Git, GitHub, VS Code, Postman

**Areas of Interest:** Software Development, Full Stack Development, Blockchain Development

## Projects

---

### NFT Marketplace

*React.js — Node.js — Express.js — MongoDB — Solidity — Ethers.js*

- Engineered a decentralized NFT Marketplace using MERN stack and Solidity.
- Integrated MetaMask wallet authentication using Ethers.js.
- Implemented JWT-based authentication and protected REST APIs.
- Designed a responsive interface for NFT minting and marketplace interactions.

### Chat Application

*MongoDB — Express.js — React.js — Node.js*

- Engineered a full-stack Chat Application using the MERN stack.
- Designed and implemented 10+ RESTful APIs for authentication and messaging.
- Integrated JWT-based user login, registration, and MongoDB data storage.
- Created responsive React.js components for smooth user communication.

### Mess Management System

*HTML — CSS — JavaScript — SQL*

- Designed a web-based mess management system for student meal records.
- Created responsive web pages using HTML, CSS, and JavaScript.
- Implemented CRUD operations for student and meal information management.
- Integrated SQL database to store and retrieve mess-related records.

Experience
